The only patent Iodine preparation providing 2%, 10% & 20% available iodine.

STERIDOL

Nonyl Alkyl Phenoxy poly Ethylene Oxide Iodine Complex providing 20% available Iodine.

For the effective Control of Antena Rot, Gill Rot, Black Gill, Brown Spot, Red Spot, Gas Bubble, Fin rot etc.

Apply
2.5L/acre - Steridol-2
500ml/acre - Steridol-10
250ml/acre - Steridol-20
Or As Per Your Aqua Consultant Recommendation.

STERIDOL-20 STERIDOL-2 STERIDOL-10

Available in 250ml, 500ml, 1L, 5L

Myristalkonium Chloride Solution 80%

MICRO-PEARL 80

- *For the effective control of Antenna Rot, Tail Rot and Gill Rot.
- *Purifies and Deodorizes water.
- *Suppresses Algae Colour.
- *Stimulates Moulting And Cleans Prawn Body.
- *High Concentration, Outstanding effect and low cost.

**150ml /Feet of water/acre
Or As Per Your Aqua Consultant Recommendation.**

Available in 500ml, 1L & 5L

Potassium Monopersulfate Triple Salt compound - 50% W/W.

PROTEX

* Disinfectant Effective against wide range of aquatic pathogen including Viruses like WSSV, MBV and Bacteria including VIBRIO Species.

* PROTEX does not effect the D.O levels, Water quality and Phytoplankton.

500g - 1Kg /acre
Or As Per Your Aqua Consultant Recommendation.

Available in 500g & 5Kg.

Isocyanuric Acid & Tris-Nitro.

- * Broad Spectrum Disinfectant.
- * To control Viral , Bacterial & Fungal Infections.
- * Effective against both gram positive and negative organisms.
- * Destroys the micro organisms by disrupting cell membrane.

(Depends on the loads) 1.5 - 2L /acre
Or As Per Your Aqua Consultant Recommendation.

Available in 1L, 5L & 20L.

An effective blend of Minerals, Vitamins and AminoAcids.

AQUA-FORTE DS

- *Helps in regular formation of exoskeleton and moulting in shrimp.
- *Improves the survival and increases the growth.
- *Sustainable plankton growth and probiotic multiplication.
- *Enhance disease resistance and defence mechanism.
- *Prevents the imbalance of mineral ions in the water.
- *Solution for all shell and muscle related problems.

10Kg /acre for water application.
3-4g/ Kg feed for feed application.
Or As Per Your Aqua Consultant Recommendation.

Available in 10Kg & 20Kg.

Partially Digested Nutrients, Chelated Minerals & Pre Biotics.

To regulate plankton levels.
To Maintain D.O.
To reduce stress.

2Kg /acre
Or As Per Your Aqua Consultant Recommendation.

Available in 1Kg.

PRO-JUICE

Rhodobacter sp, Rhodococcus sp & pseudomonas sp.

* To reduce Nitrite levels.

* To eliminates H₂S.

* Oxidises the organic compounds and provides nutrients for the plankton to growth.

Up to 45 DOC - 5L/Hec/Week

45 - 90 DOC - 10L/Hec/Week

After 90 DOC - 15L/Hec/Week

Or As Per Your Aqua Consultant Recommendation.

MICRO-PS

Available in 5L & 20L.

The First Indigenously Developed Probiotic Since 1992.
The only Probiotic Formulation in use for Nearly 3 Decades & Highly Reliable.

A Consortium Blend Of Aerobic,
Anaerobic & Photosynthetic Bacteria.

- * For controlling NH_3 , NO_2 and H_2S .
- * Reducing suspended solids, fecal matter & feed particles.
- * Stabilizing plankton bloom.

Apply 1-2 Kg of Organic Carbon (glucose/sugar/jaggery)
along with MICRO BACTER.

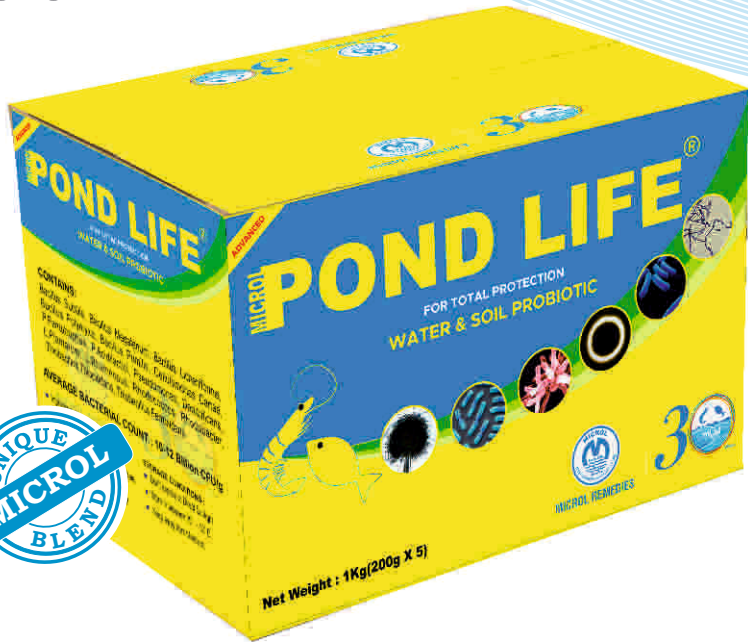

Or As Per Your Aqua Consultant Recommendation.

MICRO-BACTER

Available in 5L & 20L.

MICROL POND LIFE®

AVERAGE BACTERIAL COUNT : 10-12 Billion CFU/g

Bacillus Subtilis, Bacillus Megaterium, Bacillus Licheniformis, Bacillus Polymyxa, Bacillus Pumilis, Cellulomanas Cartae, P. Pantotrophus, P. Acidilactici, Pseudomonas, Denitrificans, L. Plantarum, L. Rhamnosus, Rhodococcus, Rhodobacter, Thiobacillus Thiooxidans & Thiobacillus Ferroxidans.

- * Optimizes Phytoplankton.
- * Eliminates H₂S, Ammonia, Nitrite & Nitrate.
- * Control Vibrio Species.
- * Decreases F.C.R & Improves Survival.
- * Reduces Organic Waste.
- * Degrades Sludge.

1 Kg/Hec Or As Per Your Aqua Consultant Recommendation.

Available in 1Kg.

Bacillus Subtilis, Bacillus Megaterium, Bacillus Licheniformis, Bacillus Polymyxa, Rhodococcus, Rhodobacter, Thiobacillus Thiooxidans, B.Circulans, NitroBacter & Nitrosomonas & B. Carboniphilus.

- 
- * Eliminates harmful gases like Ammonia, Hydrogen Sulphide and Nitrites.
 - * Improves Pond bottom & Water Quality.

250g/Acre Or As Per Your Aqua Consultant Recommendation.

ECO TECH

Available in 1Kg.

Bacillus subtilis, Bacillus Licheniformis, Bacillus Pumilus, Cellulomonas Cartae, Paracoccus Pantotrophus, Paracoccus Denitrificans, Nitrosomonas Europaea, Nitrobacter Winogradskyi, Rhodopseudomonas Palustris, Thiobacillus Thiooxidans, Thiobacillus Ferrooxidans, Rhodococcus Terrae, Rhodobacter Sphaeroides, Lactobacillus Plantarum, Lactobacillus Rhamnosus.

- * Enhances decomposition of organic waste & degrades sludge.
- * Regulates pH fluctuations & maintains good algae blooms.
- * Reduces Bad Odor.
- * Specially selected microbes work very efficiently in varying Temperatures, Salinity, pH & D.O levels.
- * Eliminates H₂S, Ammonia, Nitrate & Nitrite.
- * Improves Soil Quality.

400-600g/Acre Or As Per
Your Aqua Consultant Recommendation.

H₂S CLEAR

Available in 1Kg.

*Bacillus subtilis, Bacillus Megaterium, Bacillus Licheniformis,
Bacillus Polymyxa, Bacillus Pumilus, Cellulomonas Cartae,
Paracoccus Pantotrophus, Pediococcus Acidilactici,
Lactobacillus Plantarum, Lactobacillus Rhamnosus.*

- * Creates stress free condition for the POST - LARVAE (P/L).
- * Optimizes Phytoplankton.
- * Effectively Controls Vibrio Species.
- * Improves Water Quality.
- * Specially selected microbes work very efficiently in varying Temperatures, Salinity, pH & D.O levels.
- * Bacillus species help to control & regulate the vibrio loads.

250-500g/Acre - 2-3 days before stocking Or As Per
Your Aqua Consultant Recommendation.

PRO STOCK

AVERAGE BACTERIAL COUNT : 5.5 - 6.0 Billion CFU/g

Available in 1Kg.

ENRICHED WITH SAPONINS, NEEM,
PRO BIOTICS AND ORGANIC MINERALS

- * **INCREASED POROCITY** - Traps maximum Ammonia.
- * **IMPROVED CATION EXCHANGE CAPACITY** - Acts as a buffer to maintain pH.
- * **SAPONINS** - Absorbs Ammonia & Nitrites.
- * **MICRO NUTRIENTS** - Promotes the growth of zoo & phytoplankton.
- * **PRO BIOTICS** - Suppresses the growth of pathogenic micro organisms, degrades the sludge, reduces suspended solids and improves water transparency.

10 -15 Kg/acre Or As Per
Your Aqua Consultant Recommendation.

POWER DS

Available in 20Kg.

ORGANIC CARBON COMPOUNDS, HUMIC SUBSTANCES, CHELATED TRACE MINERALS, PROBIOTIC MEDIA AND OTHER ESSENTIAL COMPOUNDS.

- * Stabilizes pH.
- * Absorbs Toxic gases like ammonia, hydrogen sulphide, nitrites and heavy metals.
- * Supports the growth of protein rich plankton.
- * Promotes probiotic multiplication.

10Kg/acre Or As Per
Your Aqua Consultant Recommendation.

GREEN PLUS

Available in 10Kg.

Micro Nutrients Ca, P, K, Mg, Cu, Fe,
Zn, Mn, IgG, Antibodies, Nucleosides,
SCFA, Antioxidants, Binders.

- * Retains the material with feed till it is consumed.
- * Does not allow leaching.
- * Attractive Flavor.
- * Does not interfere with the metabolism.
- * Inert in nature.

As Per Your Aqua Consultant Recommendation.

MICRO GEL

Available in 8Kg & 20Kg.

Micro Nutrients Ca, P, K, Mg, Cu, Fc,
Zn, Mn, IgG, Antibodies, Nucleosides,
SCFA, Antioxidants, Binders.

- * Water stable.
- * Reduces feed wastage.
- * Attractive Flavour.
- * Does not interfere with the metabolism.

20 - 25 g with feed supplement and shade dry for few
minutes and broadcast the feed As Per Your
Aqua Consultant Recommendation.

MICRO BIND+

Available in 5Kg & 20Kg.

HIGH GRADE ALUMINIUM DIHYDRATED SILICATE, EDTIC ACID & UNIQUE COMBINATION OF FLOCCULATORS.

AQUA FLOC

- * REDUCES TURBIDITY.
- * NEUTRALIZES TOXINS IN THE POND WATER.
- * ASSISTS IN FREE MOULTING
- * REDUCES HARDNESS.

1-2Kg/Acre As Per Your Aqua Consultant Recommendation.

Available in 5Kg & 20Kg.

ELEMENTAL COPPER 12.5%
ETHYLENE DIAMINE 32.0%
INERT INGREDIENTS 55.5%

- * CONTROL VARIOUS FREE FLOATING ALGAE AND FILAMENTOUS ALGAE.
- * LIMITS BACTERIAL, FUNGAL AND PARASITIC EPISODES.
- * CONTROLS OFF-FLAVOUR.

1.5 L per Feet of water Or As Per Your Aqua Consultant Recommendation.

MICRO BLUE

Available in 1L & 5L.

OXYGEN RELEASING COMPOUNDS IN SUSTAINABLE FORM TO PROVIDE 18% OXYGEN FOR MORE THAN 8 HOURS.

**DURING ALL STRESSFUL CONDITIONS LIKE :
CLOUDY DAYS, EARLY MORNING, ALGAL CRASH,
HEAVY BLOOMS, PRE & POST MOLTING STRESS,
POND BOTTOM DECAYING ETC.**

As Per Your Aqua Consultant Recommendation.

MICRO O₂ **Granuals & Tablets**

**Available in 1Kg & 5Kg in Granuals.
Available in 2Kg in Tablets.**

SALTS OF ALKYL SULFONIC ACIDS WITH SAPONINS.

AMMO-NIL +

- * REDUCES AMMONIA LEVEL INSTANTLY UNDER ALL pH CONDITIONS.
- * CONSUMES BOTH NH_3 & NH_4 FROM AMMONIA BY SIMPLE ABSORPTION.
- * SERVES AS A SUBSTRATE FOR PROBIOTIC MULTIPLICATION.

500g / Acre As Per Your Aqua Consultant Recommendation.

Available in 500g & 1Kg.

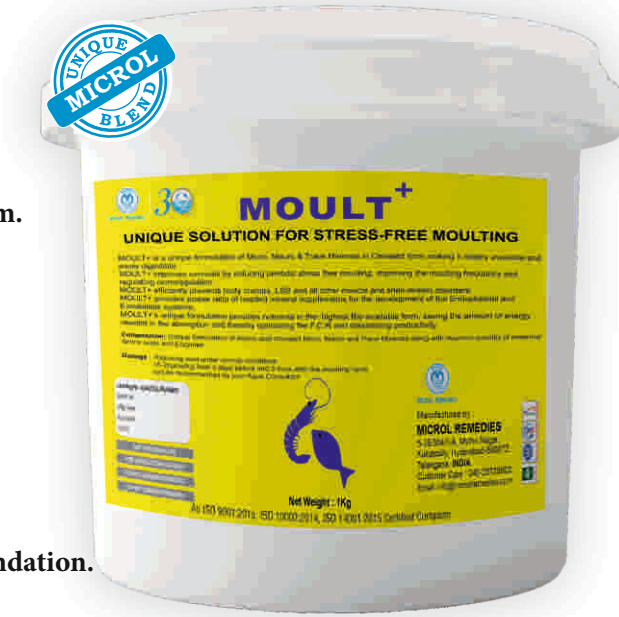

**UNIQUE FORMULATION OF AMINO ACID,
CHELATED MICRO, MACRO AND TRACE MINERALS
ALONG WITH REQUIRED QUANTITY OF ESSENTIAL
AMINO ACIDS AND ENZYMES.**

- * Prevents Body Cramps, LSS And All Other Muscle And Shell Related Disorders.
- * Provides Proper Ratio Of Needed Mineral Supplements For The Development Of Exoskeletal System.
- * Improves Growth By Inducing Periodic Stress Free Moulting, Improving The Frequency And Regulating Osmoregulation.

**10g/Kg feed under normal conditions
15-20g/Kg feed 3 days before and 3 days after the
moulting cycle or As Per Your Aqua Consultant Recommendation.**

MOULT⁺

Available in 1Kg.

A UNIQUE BLEND OF ESSENTIAL MICRO AND MACRO MINERALS, VITAMINS, AMINO ACIDS & PRO-BIOTICS.

- * Improves F.C.R.
- * Protection from Loose Shell Syndrome.
- * Pro-Biotics and Vitamins increase the disease resistance & Improves immunity.
- * Improves Metabolism.
- * Promotes plankton developments.
- * Protects from shell & muscle related problems.
- * Helps in moulting process & Exoskeletal formation in shrimp.

2.5 Kg/acre - water application
5-10 g/Kg feed - feed application
Or As Per Your Aqua Consultant Recommendation.

RICH MIN

Available in 1Kg & 5Kg.

VITAMIN C [L-Ascorbic Acid] in micro encapsulated form with essential Amino Acids and Vitamins.

CIVITRON 50

- * Improves F.C.R and Survival Rate.
- * Enhances immune system.
- * Assists in shell formation & muscle development.
- * Increases body weight by acceleration growth.
- * strengthens host defence mechanism, reduces stress and decreases mortality.

**2-4 g/Kg feed - feed application
Or As Per Your Aqua Consultant Recommendation.**

Available in 500g.

A CONSORTIUM BLEND OF AEROBIC, ANAEROBIC
& PHOTO SYNTHETIC BACTERIA.

MICRO BACTER

- * FOR CONTROLLING NH_3 , NO_2 & H_2S .
- * REDUCING SUSPENDED SOLIDS, FAECAL MATTER
& FEED PARTICLES.
- * STABILIZING PLANKTON BLOOM.

2.5 L/acre with 1 - 2Kg of organic carbon (glucose/sugar/jaggery).
Or As Per Your Aqua Consultant Recommendation.

NOTE: APPLY ONLY IN SUNNY CONDITIONS.

Available in 5L & 20L.

Rhodopseudomonas palustris ALONG WITH
CONSORTIUM OF FACULTATIVE BACTERIA.

MICRO-RP

- * FOR CONTROLLING NH_3 , NO_2 & H_2S .
- * REDUCING SUSPENDED SOLIDS, FAECAL MATTER & FEED PARTICLES.
- * STABILIZING PLANKTON BLOOM.

1 - 40 DOC : 6 - 8 L/acre/one time/week.
40 - 90 DOC : 8 - 10 L/acre/2 times/week.
90 - 120 DOC : 10 - 12 L/acre/2 times/week.
Or As Per Your Aqua Consultant Recommendation.

NOTE: APPLY ONLY IN SUNNY CONDITIONS.

Available in 5L & 20L.

NONYL ALKYL PHENOXYPOLY ETHYLENE OXIDE IODINE COMPLEX

STERIDOL-H

**STERIDOL-H is the only patent formulation in India
with additional benefits.**

- (a) Mild detergent activity
- (b) Active in hard water
- (c) Harmless and non-irriant
- (d) More Shelf life

PURPOSE

- ★ Tank Cleaning
- ★ Fresh Feeds & Brood Stocks
- ★ Animals Sanitation before spawning
- ★ Eggs & Nauplius
- ★ Foot Bath, Hand Wash, Pipe lines, Equipment

DOSE

- 100 PPM
- 100 PPM
- 200 PPM
- 50 PPM
- 100 PPM

HOW TO PERPARE

- 0.1 ml per litre
- 0.1 ml per litre
- 0.2 ml per litre
- 0.05 ml per litre
- 0.1 ml per litre

Available in 1L & 5L.

Ecotech-H Is A Specially Formulated Probiotic With Natural, Non-pathogenic And Pure Microbial Cultures Of 7 Proprietary Gram Positive Spore Forming *Bacillus* Species And 7 Gram Negative Vegetative Strains Enriched With Proprietary *Saccharomyces Cerevisiae* For Efficient Water Conditioning In Shrimp Hatcheries.

ECOTECH-H

AVERAGE BACTERIAL COUNT : 8 - 10 BILLION CFU

- Stimulates Immune Response In The Shrimp & Helps Them To Produce Inhibitory Compounds Towards Pathogens.
- These Unique Strains Have High Adaptability To Wide Range Of Salinity, Ph, Temperature & D.o.
- Inhibits The Formation Of Waste Products Such As Ammonia,
- Nitrite & Nitrate And Thus Providing Stress Free Conditions For The Animal.
- Incorporated Strains Are Highly Effective In Inhibiting Pathogenic Bacteria That Cause Zoea 2 Syndrome & Mysis Moults Syndrome.
- Increases P/I Survivals & Better Yields.
- Allows For Higher Stocking Densities.

- ★ For BROODSTOCK : 2-4 ppm, 2 g to 4 g per 1000L water.
- ★ For ZOEA/MYSIS : 1-3 ppm, 1 g to 3 g per 1000L water.
- ★ For POST-LARVAE : 1-3 ppm, 1 g to 3 g per 1000L water.
- ★ During conditions like Zoea 2 syndrome &
- ★ Mysis moults syndrome : 3-5 ppm, 3 g to 5 g per 1000L water.

Available in 500g.

5 PROPRIETARY STRAINS OF *Bacillus species*,
Lactobacillus species, *Saccharomyces species*,
Amylose, *cellulose*, *protease*, *Betaglucanase*.

- * Effective probiotics by producing enzymes and facilitates the growth of beneficial microflora.
- * Increases survivals by stimulating the Body's natural defense mechanism, increasing disease resistance and suppressing potentially harmful bacteria.
- * Competitive exclusion of pathogens reduces exposure to pathogens.
- * Facilitates feed digestion and absorption in the digestive tract.
- * Improves nutrient digestion & increases metabolic function leading to better FCR.
- * Helps shrimp in faster recovery from Gut related diseases & infections.

2 - 3 g/Kg feed
Or As Per Your Aqua Consultant Recommendation.

MICRO-PRO F

Available in 500g.

**NATURAL EXTRACTS WITH ENZYMES
FORTIFIED WITH IODIZED SALTS.**

- *EFFECTIVE CONTROL OF WHITE FECAL MATTER.
- *EFFECTIVE CONTROL OF BACTERIAL DISEASES OF THE GUT.
- *ACTS AS ANTI-INFLAMMATORY & MICROBICIDAL IN THE GUT.

**3 - 5 g/Kg feed
Or As Per Your Aqua Consultant Recommendation.**

GUT HEAL

Available in 500ml.

IMPORTED FROM ITALY & MANUFACTURED UNDER GMP+ CONDITIONS

MIXTURE OF SHORT & MEDIUM CHAIN MONOGLYCERIDES AND ORGANIC ACIDS : MONOCAPRIN, MONOCAPRYLIN, MONOLAURIN, MONOBUTYRIN & MONOPROPIONIN

SURVIVOR

- * REDUCES RUNNING MORTALITY(RMS).
- * IMPROVES SURVIVALS.
- * PREVENTS VIRAL DISEASES BY ENCHAINING INNATE IMMUNE RESPONSE OF THE SHRIMP.
- * PREVENTS & TREATS WHITE AND YELLOW GUT.

MIX 7 g/Kg feed IN A MINIMUM OF 2 MEALS A DAY FROM DOC 1 TO HARVES.
Or As Per Your Aqua Consultant Recommendation.

Available in 1Kg & 5Kg.

**ORGANIC MINERAL FEED SUPPLEMENTS WITH
SPECIAL STRAINS OF *BACILLUS SUBTILIS*.**

- 1. 100% WATER SOLUBLE MINERALS.**
- 2. FOR INSTANT MINERAL REPLENISHMENT.**
- 3. FOR GOOD QUALITY AND QUANTITY FLOC DEVELOPMENT.**

**2.5 Kg/1000 sqM FOR WATER APPLICATION
10g/ Kg FEED FOR FEED APPLICATION
Or As Per Your Aqua Consultant Recommendation.**

INFUSION

Available in 2.5Kg.

FLAVONOIDS, NATURAL PLANT CONSTITUENTS.

1. INCREASE GUT AND ANIMAL HEALTH.
2. REDUCE INFLAMMATION OF THE GUT AND HEPATOPANCREAS.
3. REDUCE CELL NECROSIS.
4. PREVENTS VIBRIOSIS..
5. ENHANCES ANIMAL PERFORMANCE.

2g/Kg FEED Or As Per Your Aqua Consultant Recommendation.

DR. ECKEL
creative solutions
GERMANY

HEPATO HEAL[®]

A BREAK THROUGH FOR HEPATOPANCREAS NECROSIS

Available in 500 g.

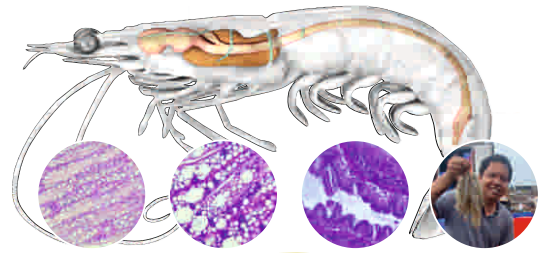

HP-BOOST

FOR A HEALTHY HEPATOPANCREAS

PRECURSOR OF DEOXYCHOLIC ACID AND ANTI-OXIDANTS ALONG WITH GUT PRO-BIOTICS.

- For Healthy Hepatopancreas.
- To overcome Soft Shell Mortalities.
- For prevention of WFS.

2g/Kg FEED - IN 2 FEEDS DAILY Or As Per Your Aqua Consultant Recommendation.

Available in 500 g.

HP - BOOST IS THE ONLY SOLUTION FOR A HEALTHY HEPATOPANCREAS.

DR. ECKEL
creative solutions
GERMANY

SAPOTAN

REDUCES AMMONIA BETTER THAN YUCCA

NATURAL PLANT MATERIAL FROM CASTANEA SATIVA AND QUERCUS ROBUR, WHICH CONTAIN TRITERPENOID SAPONINS.

- * FOR AMMONIA REDUCTION IN POND WATER.
- * INCREASES INTESTINAL PERMEABILITY.
- * ANTIMICROBIAL ACTIVITY IN THE INTESTINE.

250 g Per Acre for Pond Water
2-4g per kg feed as feed supplements
Or As Per Your Aqua Consultant Recommendation

Available in 500 g.

A MODIFIED ZEOLITE WITH PRO-BIOTICS

MICRO POWER G

- 
- * FOR AMMONIA REDUCTION IN POND WATER.
 - * PRO BIOTICS - Suppresses the growth of pathogenic micro organisms, degrades the sludge, reduces suspended solids and improves water transparency.
 - * THE GRANULAR FORM MAKES IT TO SINK TO THE BOTTOM WHERE THE ACTION IS REQUIRED.

20 - 25 Kg/Acre
Or As Per Your Aqua Consultant Recommendation.

Available in 20 Kg.
